

## HOME & HANDMADE

We use, if available, fresh products, if possible in bio-quality.

All our ingredients are free of additional amendments. We employ staff members with the core task of developing new recipes, quality control and tasting, as well as the production of our own products.

„Home & Handmade“, also means to us, that we produce, if possible everything by hand.

What you need is the love for the product, and we have plenty of it – Enjoy!

## COFFEE FROM OUR IN HOUSE ROASTER RÖSTRAUM®

Our very own roasting facility RÖSTRAUM® delivers the coffee we are serving.

We use selected beans from the best regions in the world and we roast them in a Probat-Drum-Roaster.

We allow our beans a small adolescence, before our baristas turn them into the coffee of your choice.
